Asymptomatic newborn with EA after surgical correction

1. **PPI for 1 year**

2. **pH-MII probe**

3. **Reflux?**
   - **Yes**
     - **Stop PPI**
   - **No**
     - **Symptoms?**
       - **Yes**
         - **EGD and pH-MII probe**
       - **No**
         - **Symptoms?**
           - **Yes**
             - **See algorithm on symptomatic patient with EA**
           - **No**
             - **Wean PPI trial**

4. **Reflux?**
   - **Yes**
     - **Wean PPI trial**
   - **No**
     - **Continue PPI and monitor consider fundoplication**

5. **Symptoms?**
   - **Yes**
     - **Stop PPI**
   - **No**
     - **EGD and pH-MII probe**

6. **Symptoms?**
   - **Yes**
     - **Stop PPI**
   - **No**
     - **See algorithm on symptomatic patient with EA**

7. **Reflux?**
   - **Yes**
     - **Stop PPI**
   - **No**
     - **Symptoms?**
       - **Yes**
         - **See algorithm on symptomatic patient with EA**
       - **No**
         - **Wean PPI trial**

8. **Symptoms?**
   - **Yes**
     - **Stop PPI**
   - **No**
     - **See algorithm on symptomatic patient with EA**

9. **Reflux?**
   - **Yes**
     - **Stop PPI**
   - **No**
     - **Symptoms?**
       - **Yes**
         - **See algorithm on symptomatic patient with EA**
       - **No**
         - **Wean PPI trial**

10. **Symptoms?**
    - **Yes**
        - **Stop PPI**
    - **No**
        - **See algorithm on symptomatic patient with EA**

11. **Scope @ 10 years and 9 transition and every 5 to 10 years**
